# Welcome

## *to our new catalogue*

### Welcome to our new catalogue

Firstly I would like to thank all our customers for their support and loyalty in the past few years. Business has grown considerably and we are proud to be working with people who appreciate our work.

This season has kicked off with strong sales and a great atmosphere across the industry, our expansion last year was well timed which allowed us to grow a wide range of 2Ltr shrubs that have been popular with our customers, so we plan to increase the quantity and the variety choice in the future.

We aim to keep standards high when it comes to quality with dedicated staff using the latest technology available making us one of the most modern nurseries in the UK. We encourage everyone to visit our 30+ acre site in the idyllic Norfolk countryside.

There are many new varieties of plants available this season, so take a look!
